Subject: I-73 in South Carolina

Just a heads-up. I was on the phone this morning with a consultant in SC, who has been working on I-73. He told me that there is discussion going on with FHWA/SCDOT regarding updating the NEPA analysis of the project, since it has been a number of years since the FEIS. There is no definite information about a Supplemental EIS schedule at this point, this is a situation that is evolving. I'll keep you updated as things develop.
